# CASE STUDY

One Gloucester Place,  
Brighton

## **BEFORE**

## **DURING**

## **AFTER**

### **Description of Works:**

Chiller Replacement

### **The Project Summary:**

During the current lockdown period, Jaguar Projects continues to adapt to the ever-changing challenges faced within the project construction world.

While adhering to the government guidelines of maintaining social distancing, Jaguar and their specialist subcontractor team successfully planned and completed a crane lift to replace roof plant serving the cooling infrastructure to one of their client's buildings.

**A great effort to the Jaguar Projects team and their service delivery partners for this achievement.**
