

# InSite

Jaguar's in-house Quarterly Newsletter

July 2019

## HIGHLIGHTS

- ✂ A note from Paul Roberts, Managing Director  
Paul Roberts provides a business update & welcomes new staff members (pg. 2).
- ✂ 'A Day in the Life' of an Account Manager  
We caught up with Luke Poole to get his thoughts on life as an Account Manager (pg. 4).
- ✂ Employee of the Quarter  
Find out the Winners, Runners up and Nominees of our Employee of the Quarter scheme! (pg. 12).
- ✂ A Chance to WIN!  
Answer our technical question to win a prize! All answers to be submitted by the 20th September (pg. 22).

**Pictured:** The Jaguarrrr Pirates racing for COSMIC at 5 Merchants Square

# A note from Paul Roberts, Managing Director

**Paul Roberts,**  
Managing Director

“Welcome to our third issue of 'InSite.' I very much hope that that you find the content informative, enjoyable and interesting. Many thanks to Bebe Ray for arriving at the name. ”

"In our **Commercial Update** we feature a number of new sites including those previously managed by Birchalls. Birchalls were a great business which delivered a great service to their customers. For those of you that suddenly found yourself working for Jaguar at very short notice, thank you for helping us to take on these sites in challenging circumstances! In our Health & Safety update we feature our recent RoSPA award. Congratulations to Louise and the team, a great win at a very busy time! In our **'Spotlight on a Site'** feature we visit Lloyd's of London, a fascinating business with a great team! On page 6 we feature **Perkbox**. Please do make the most of this service as it's free and can save you a lot of money! Our featured **Technical article** includes a case study on Energy Monitoring and Targeting. This is an area in which the business intends to attract more resources going forward. We have had a fantastic response to our 'Employee of the Quarter' competition! Congratulations to Mike Bradshaw, Marta Mrowiec and Neil Vincent and the runners up, great work! Our **'A Day in the Life'** details life as an Account Manager through the eyes of Luke Poole.

**'An inSite into our Community OnSite'** will feature a Danson Runners update, helping out at Ivy Street Family Centre and the Dragon Boat Race at Merchants Square in support of COSMIC. Due to limited space in July's newsletter we cannot feature the

charitable work that many of you do on a regular basis. If you are currently supporting a charity and would like to raise awareness through this Newsletter then please contact Rebekka and we will do our utmost to feature you in the next edition. Lastly, we have included pictures of our very successful **Summer Party**, a great event where it was great to catch up with so many of you! We are currently experiencing an unprecedented level of growth which is directly attributable to our excellent reputation within the central London Market, indeed our current challenge is to limit our growth to a sustainable level.

When I formed the business 31 years ago I did not foresee this level of success. Our growth is entirely due to the great people and teams that work every day to do the right thing and deliver a great service to our customers. The measure of our success is not simply about new wins, but about retaining existing customers and I'm pleased to report that in the last two years we have lost only one contract which we resigned. Sustainable growth is hugely important to the future of the business and to manage this we frequently decline opportunities irrespective of their size. In the last 8 months we have declined some of the highest profile developments in Central London, and employed 184 new members of staff since November 2018.

I once again thank you for your efforts in making this business what it is today." **Paul Roberts, Managing Director.**

In the last quarter we have been appointed at a total of 9 new buildings! We have featured our latest wins below.

# Quarterly Commercial Update

New Buildings May - July 2019

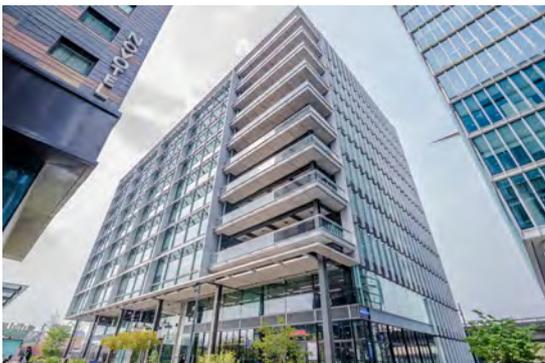

1 Angel Court, EC2

1 King William Street, EC4

The Blue Fin Building, SE1

4 Kingdom Street, W2

2 Kingdom Street, W2

Here East, E15

50 Broadway, SW1

3 Sheldon Square, W2

Paddington Estate, W2

In the last quarter we employed  
**69 new members of staff**

Over the last 3 months we have been appointed at  
**9 new properties**

Since May 2019 we have secured  
**£3.5m in new business**

**Luke Poole, Account Manager**

## 'A Day in the Life' of an Account Manager at Jaguar

We had a chat with Luke Poole, Account Manager since September 2018. Luke has been with the company for 11 years, starting out as a Site Supervisor at 1 Westferry Circus.

### **How did you become an engineer?**

I actually started my career as a bricklayer! My dad wanted me to get a trade when I first left school. Once I completed my brick laying

apprenticeship, I began working at a company called Winsor and Newton and managed to get a mechanical engineering apprenticeship through them. I qualified with my City & Guilds and NVQ levels 1, 2 & 3.

### **What was your first engineering role?**

I started my first job in the industry as a Mobile Maintenance Engineer. I learnt a lot looking after cinemas and police stations in the UK. I had to be able to fix lots of different types of systems and get it right the first time!

From being a mobile engineer, I went into a Site Supervisor role for Broadgate Estates. In the city, M&E was very different! I learnt about monthly reporting and the managerial side of

maintenance and engineering.

### **When did you start with Jaguar?**

I started with Jaguar over at 1 Westferry Circus as a Site Supervisor in 2008.

I then went on to become the Site Manager overseeing a team of four, before becoming a Capacity Manager. I believe that Capacity management is the best way to get to know the role of an Account Manager. You get to experience a wide variety of clients and get a good understanding of the different expectations every customer has.

### **What has been your toughest challenge?**

As an Account Manager, I face different

challenges every single week. My toughest challenge has been making the transition from being an onsite Manager to an Account Manager. It was all unknown to me; stepping out of my comfort zone and learning new things every day was tough! That said, I have loved every minute of learning the new role.

**What do you think is the best thing about being an Account Manager at Jaguar?**

I have really enjoyed being part of the process from day one. From the first handshake in a tender meeting, to then winning the job and being on site from contract commencement has been so rewarding, and a real highlight of becoming an Account Manager.

**What advice would you give for someone looking to get into the role?**

My best advice for anyone looking to get into Account Management is to be prepared for the fact that there is no typical day! When dealing with new challenges day to day, there is a wider support network at Jaguar that you can always call upon. In my experience,

everyone working at Jaguar is extremely approachable - whether that be a Senior Account Manager, a Director or Head of Department, there is always an open door to advice when needed. Throughout the role, I have learnt so much from other Account Managers, Seniors and Directors and have tried to take the best bits from all of them.

**"From the first handshake in a tender meeting, to then winning the job and being on site from the contract commencement has been so rewarding and a real highlight of becoming an Account Manager."**

# New Perks!

# Health & Safety Update

We are very proud to announce that Jaguar received the Silver RoSPA award for the third consecutive year!

## RoSPA 2019

We understand that excellent Health and Safety standards are paramount within our industry, and therefore safety is always at the forefront of everything we do. We would like to take this opportunity to thank every one of our teams across the organisation who helped to secure the award. Louise Davies, Jaguar's Health and Safety Manager commented: "Although the

level of health and safety at Jaguar is consistently high, we have been focused on developing and improving our health and safety strategies. We strive for exceptional standards of safety, and we intend on implementing innovative solutions as the business continues to expand."

## Did you know?

- **Slips and trips are the most common cause of major injuries at work.**
- **Asbestos would have claimed the lives of circa 10 million people globally before it is fully controlled.**
- **Each year in the UK alone around 1,000 electrical accidents at work are reported to the HSE and approximately 25 people die from their injuries.**

## Safety Bulletin

In July we released a new safety bulletin that outlined the importance of accident, incident and near miss reporting. Under the Health and Safety at Work Act 1974, we as employees have duties to ensure that any injury at work including minor injuries are reported.

All injuries must be recorded in the Site Accident Report Book and a copy must be sent to the Health and Safety department. If an investigation is required, you may be asked to complete a H&S F018 Incident Accident

Investigation form.

Near miss reporting is an opportunity to stop accidents happening. Sharing learnings from near miss reporting assists our business in preventing accidents. To report a near miss you will be required to complete the H&S F019 Near Miss form which must be sent to the Site Manager/Supervisor and a copy must be sent to the Health and Safety department.

Recent statistics released by the Health and Safety Executive revealed a slight increase in the number of fatalities for a

second year running.

The number of fatalities in the UK are up 6 from 141 in 2017-2018 and 135 in 2016-17. If you wish to review the newly released statistics they can be found by visiting the HSE website: <https://www.hse.gov.uk/>.

**REMINDER: Please continue returning your monthly toolbox talks. We have seen a slight downturn in the return of toolbox talk records. Those sites who have failed to return their records will be reported to their Account Manager and will be contacted.**

# CASE STUDY

## Energy Monitoring and Targeting

### What is monitoring and targeting?

Monitoring and Targeting is an energy management technique that can be applied to any type and size of organisation, including commercial, industrial or public sector properties.

The purpose of Monitoring and Targeting, is to relate energy consumption data to performance indicators such as weather so that a better understanding of how energy is being used can be established. Most importantly, it identifies excess energy consumption, signs of avoidable wastage and other opportunities to reduce usage.

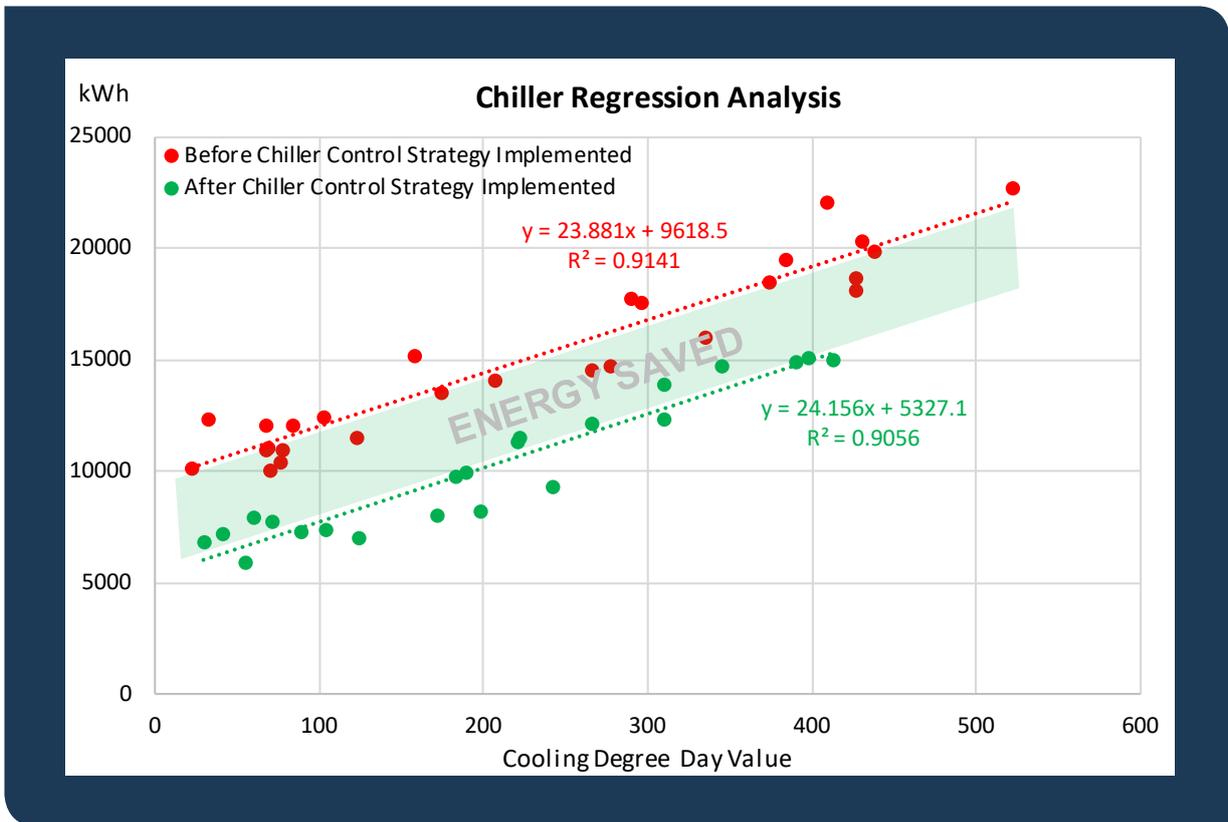

Jaguar's Technical team, pictured left to right: Will Kendal, Technical Services Engineer; Adam Nguyen, Technical Services Engineer; Tony Jackaman, Head of Technical Services; Stuart Colvin, Water Treatment Consultant; Rob Clayton, Technical Assessor and Gary Scofield, Technical Services Engineer.

### Annual savings summary:

<b>50,750 kWh</b>	<b>28% reduction in chiller consumption</b>
<b>14,255 KgCO<sub>2</sub></b>	<b>£5,075</b>

Monitoring and Targeting was recently used at one of our sites to quantify the energy savings following on from a project carried out to improve chiller efficiency. At the site, the chiller flow set point was being manually adjusted to correspond with the varying outside air temperature. This is not an efficient method of operation.

Jaguar's Technical team implemented a chiller control strategy within the Building Management System to enable automatic compensation of the chiller flow set point against outside temperature. By recording these set point changes and using a Monitoring & Targeting programme to benchmark chiller consumption against cooling degree days, potential energy savings could be quantified, resulting in a more accurate payback period for our client.

The reduction in energy consumption can be seen in the chiller regression analysis graph shown above. The monthly chiller consumption is plotted against cooling degree days showing the line of best fit (performance line). It highlights that there is a clear relationship between the chiller consumption and the weather. This allows us to predict future chiller usage based on historical consumption and outside air temperature.

It is expected that a **28%** reduction in chiller consumption is possible which would result in a **saving of 50,750 kWh**, which would achieve a total **saving of £5,075 per year!**

**An effective Monitoring and Targeting scheme will provide essential underpinning of your building's energy management, allowing you to:**

1. Detect avoidable waste
2. Identify overall trends in energy performance
3. Quantifying energy savings
4. Identify potential lines of investigation
5. Provide feedback for staff awareness
6. Improve budget setting

If you think your site could benefit from a Monitoring and Targeting team, contact Adam Nguyen on: [anguyen@jbs-ltd.co.uk](mailto:anguyen@jbs-ltd.co.uk)

## Building Facts

**Client:** Lloyd's of London

**Square Footage:** 522,000 ft<sup>2</sup>

**Number of floors:** 12 plus Room Level, Lower Ground, Upper & Lower Basements and 4 x Roof Plantrooms

**Size of team:** 25

**Staff coverage:** 24/7 Coverage

**Chillers:** 2 x Klima-Therm units at 1700 kW & 1 x McQuay unit at 1700 kW

**Boilers:** 3 x Dual Fuel Gas & Oil Robey Lintherm units 2 x 3516 kW & 1 x 1611 kW

**Generators:** 2 x 1875 kVA Harland and Wolff Marine diesel units supplying 415V 3 phase

**Electrical Supply:** 2 x UKPN supplies at 11 kVA

**Cooling Towers:** 3 x Open Evaporative Cooling Towers

# Spotlight on a Site: Lloyd's of London

**1 Lime Street, EC3M 7HA**

With a combined service of 234 years, the team at Lloyd's are certainly dedicated to the building! We visited the infamous landmark site and met the team behind the scenes...

Jaguar secured the hard services contract at Lloyd's of London in November 2018. It was a notable win, and we inherited a fantastic team of 25. The team are a very genuine and welcoming bunch and know the site inside out. The longest serving member of the Lloyd's team is Lee Robertson, CAD Technician, who has completed 34 years of service. The combined years of service for the whole of the team is a whopping 234 years! Darren Walton, Engineering Services Manager at Lloyd's commented: "There are a lot of reasons why I enjoy working within the Lloyd's building: the team I have the privilege of working with, their support and knowledge of the building and that no day is ever the same. The Corporate Real Estate's "ONE TEAM" approach means that all service partners working within the building are all made to feel part of an enjoyable working environment with everyone willing to

support and help each other. I think that this approach has helped to make us the unique team that we are."

In 2011 at 25 years old, the building received a Grade One Heritage listing and was the youngest structure ever to obtain the status. The fact that the building is listed often sets many challenges for any repair work or alterations that may be necessary. Over the last two years, due to improvement works and essential repairs, the team has facilitated a total of 28 building shutdowns, most of which have required both incoming UKPN supplies be switched off. The reason that the building has been able to undergo so many shutdowns (ensuring the building has been returned to operational status and ready for occupation for normal business hours) is wholly down to the effort of the onsite team. Andrew Harris, the sites SAP has participated and overseen every shutdown, along with continuing to run the Lloyd's sites in Chatham and Sittingbourne.

**Introducing some of the team at Lloyd's of London. First row:** Mike Hayes, Account Manager; Darren Walton, Engineering Services Manager; Andrea Harris, Contract Administrator; Ronnie Bailey, Box Works Improver; Mike Bradshaw, Project Manager; Richard Miah, Technical Administrator. **Second Row:** David Lloyd, Mechanical Shift Technician, Clayton Dixon, Fabric Technician; Lee Robertson, CAD Technician. **Back Row:** Andrew Lesk, Box Works Coordinator; Andrew Henderson, Electrical Shift Technician; Rory Byrne, Electrical Shift Leader and Toby Smither, Stores Administrator.

# Employee of the Quarter

## Our Winners

Thank you to everyone who took the time to vote for your Employee of the Quarter. Our winners and runners up were all assessed and chosen by our Directors. It's fantastic to see so many of you recognising excellent work amongst colleagues and friends.

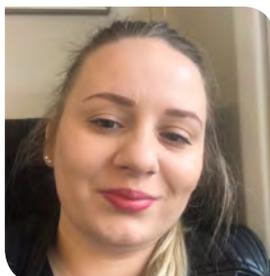

**Mike Bradshaw, Project Manager at Lloyd's of London**

Mike received high praise for his involvement in closing the contract at the Cadogan Tate storage facility for Lloyd's of London. Mike conducted site surveys of the facility in Hemel Hempstead and coordinated the Cadogan staff during the closure process. The assistant facilities manager at Lloyd's said: "Without Mike's assistance we wouldn't have been able to achieve closure of this contract on time. Please pass on my thanks to Mike it's greatly appreciated." Great job Mike!

**Marta Mrowiec, Roving Administrator**

Marta is one of our Roving Administrators, and she consistently receives positive feedback from the Jaguar sites that she visits and supports. Marta demonstrates true dedication to her role, with great attention to detail and complete ownership of the tasks she takes on. One of Jaguar's Site Managers who nominated Marta commented: "Marta is extremely proactive and a real pleasure to work with." Well done Marta!

**Neil Vincent, Site Manager (Tenants) at Nova South**

Neil was nominated by both his Account Management team, and an occupier at Nova South. Neil gave assistance and guidance to the occupier who had recently moved into their floor and provided quotations for essential ad-hoc works. The outcome of Neil's actions culminated in a twelve-month M&E maintenance contract with the occupier who stated: "Neil and his team are superb and instrumental in winning this." Well done Neil!

## Runners up

Congratulations and well done to our runners up shown below who also received recognition for their hard work:

**Andrew Ghagan, Support Engineer Supervisor**

**Courtney Nish, Day Technician at The Heron**

**Allie Waite, Roving Administrator**

**Allan Taylor, Site Manager at 100 New Oxford Street**

# Employee of the Quarter **continued**

We have listed all individuals who were nominated from May - July. Well done to everyone who was nominated and thank you for your continued hard work and dedication.

## The Nominees

Ryan Hunter, Improver at Berkeley Square House

Rachel Thomas, Mobilisation & Contracts Administrator at Head Office

Mike Berry, Support Engineer

Catherine Waite, General Administrator at Head Office

Derrick Poku, Site Supervisor at 67 Lombard Street

Ian Etherington, Electrical Technician at Park House

Rob Clayton, Technical Assessor at Head Office

Garry Traveller, Site Manager at Simmons & Simmons

Tara Osborne, Roving Administrator

Nasir Mirza, Tenant Supervisor at Mid City Place

Moses Miah, Electrical Technician at Nova

Gary Raven, Site Supervisor at 80 Cheapside

Tony Knight, Account Manager at Head Office

Morgan Todd, Assistant Business Development Manager at Head Office

## Get Voting!

Voting will re-open on the 1st of August. Please vote through our online survey tool at:

[www.surveymonkey.com/r/SH3JQVX](https://www.surveymonkey.com/r/SH3JQVX)

Please submit all nominations by 15th October for your vote to be counted.

**If you need any help making your nomination, or have any questions please contact Rebekka on:**

**T: 0207 071 0748**

**E: [rgough@jbs-ltd.co.uk](mailto:rgough@jbs-ltd.co.uk)**

# An InSite into our Community OnSite

## Danson Runners

On 29th June, the Jaguar sponsored Danson Runners performed a 'Parkrun takeover.' The Orange Army provided every volunteer for the weekly event which included the Race Director, Timers, Barcode Scanners, Funnel Managers & Marshalls. They also held a cake sale during the event and raised over £400 for a local hospice. Co-founder of the Danson Runners, Stephen Ralley, commented:

"Parkrun is a fantastic worldwide community initiative. It brings together thousands of people every Saturday morning and has played a huge part in the growth of our own club. Parkrun is totally reliant on volunteers, so it's great for the club to give something back by doing this takeover."

Why not give your local parkrun a go? For more information, go to: [www.parkrun.org.uk](http://www.parkrun.org.uk).

## Ivy Street Family Centre

We had a great experience recently sorting through donations for our charity partners, the Ivy Street Centre. Their Growbaby unit receives hundreds of donations of baby clothes and equipment which are provided to parents in need completely free of charge. Through spending time with the team, we got to see the hard work that goes into providing such an invaluable service to the community. As an independent charity, Ivy Street rely on the generosity of donations and fundraising. If you would like to donate any of your old baby clothes or equipment, please contact the centre directly on: **020 7729 2789**.

# Dragon Boat Race 2019

An InSite into the Annual Dragon Boat Race held at Paddington Basin on 25th July.

# The JAGUARRR Pirates!

On the 25th of July, the Jaguarrrr Pirates braved the heat and torrential rain for the annual Dragon Boat Race at Paddington Basin. The race has been happening on the Paddington Basin canal for over 10 years and our team entered the race to raise essential funds for charity COSMIC (Children of St. Mary's Intensive Care). COSMIC supports St Mary's Hospital in Paddington by helping Paddington by helping patients and their families, and

enabling the dedicated team to treat hundreds of critically ill children from all over London and the South East each year. Despite it being the hottest day of the year, the Jaguarrrr Pirates came in at a very impressive fourth place out of eighteen teams! Sid Newbon, Senior Account Manager commented: "We had a fantastic time taking part in the regatta. Our team pulled together yet again this

year to beat our 2018 time, and they also managed to raise over £1800 for charity COSMIC. We are very proud of our Pirates and look forward to competing again next year!"

**The Dragon Boat Race event raised over £20,000 for COSMIC, with the total still rising!**

Jason Small, Electrical Technician at 5 Aldermanbury Square (pictured left) said: “What a great event for charity! It was a blast. I will definitely be competing again in the 2020 Dragon Boat Race. I would love to be on the winning team next time as I feel there is a strong chance we could get in the medals! The Jaguarrrr’s are on the rise!!”

Our team this year came in fourth beating last years team by three places! The Pirates are pictured on page 16, **upper tier from left to right:** Jason Small, Electrical Technician based at 5 Aldermanbury Square; Darren Moss, Project Manager; Elliott Taylor, Account Manager; Hayden Van Tromp, Engineering supervisor based at Lloyd’s of London; Andrew Ghagan, Support Engineer Supervisor; Grace Roberts, Operations; Amy Marchant, Accounts Assistant. **Lower tier from left to right:** Eskender Abey, Roving Engineer; Paul Stevens, Estimator; Andrew Rowlands, Roving Engineer and Greg Deverell, Site Manager based at Mid City Place.

# Jaguar Events and Courses

(August - October 2019)

## LGN's Property 5k

### 5th September

Join us for the annual Property 5k run on the 5th September 2019. The course will take place in London's beautiful Regent's Park. In 2018, Jaguar came 13th out of 20 teams. Lets see if we can beat our time in 2019!

**Not a runner? No problem!** If you would like to attend the event as a supporter that's fine too, we would love to see you in support of our runners on the day.

## PRS 5 Aside Challenge

### 19th September

We had a great response to the 5-aside football team request and now have a full team! The event will be held at Powerleague Shoreditch, Braithwaite Street, E1 6GJ, with kick off at 17.30. Please come along and show your support!

### The Team

Paul Stevens  
Joao Cabacinha  
Neil Harrod (GK)  
Marcin Maciejewski  
Andrew Ghagan  
Graeme McSorley  
Tony Jackaman (C)  
Connor Tomlin  
Chris Cook  
Sam Potter  
Dean Cook  
George Mather

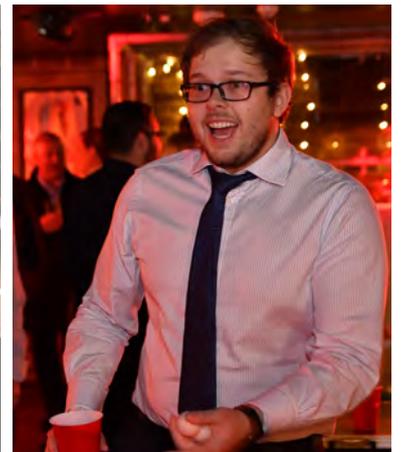

## Confirmed course dates

COURSE TYPE	DATE	LOCATION
LV 1&2 Training	Thursday 1st August: 09:00 – 13:00 Thursday 8th August: 09:00 – 13:00 Wednesday 14th August: 09:00 – 13:00	Head Office
Focal point Training	Tuesday 6th August 15:00 – 17:00	Head Office
L8 Training	Thursday 15th August 09:00 – 13:00	Head Office

We held our annual summer get-together at Core Bar on Queen Street in June. The event was a success, complete with Beer Pong and a Cocktail Happy Hour!

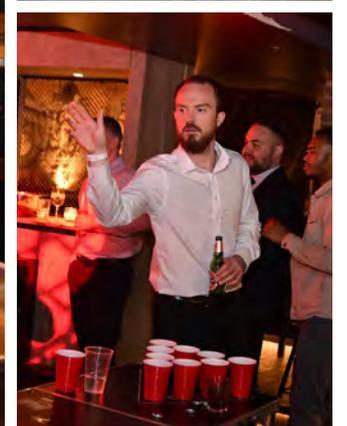

Please contact Rebekka at [rgough@jbs-ltd.co.uk](mailto:rgough@jbs-ltd.co.uk) if you would like a copy of any of the photos

If you remember being snapped on the night but your photo hasn't been featured, please contact [rgough@jbs-ltd.co.uk](mailto:rgough@jbs-ltd.co.uk)

Enter Jaguar's competition to win  
a £25 One4all voucher!  
Good Luck!

# WIN Your Chance to Win

Answer our technical question and submit your answer to Rebekka by the 20th September via email to:

[rgough@jbs-ltd.co.uk](mailto:rgough@jbs-ltd.co.uk)

Everyone can enter whether you are technical or non-technical! As long as you send the correct answer to the above email address, your name will be entered into a prize draw. The winner will be informed via email and announced in the next issue.

Good luck!

## April's Winner!

The winner of April's technical question prize draw was Steve Taylor. Steve is a Handyman at 30 North Colonnade and has been with Jaguar for 9 years 7 months. Congratulations Steve!

## July's Technical Question

I'm often found in electrical switchrooms. If you need the electrical supply disconnected in an emergency then you hit me very quickly and I should do the rest!

**What am I?**

## Spot the Difference!

Can you spot five differences between the two images below?

**Do you know  
someone who  
would like to  
join our team?**

**Jaguar Building Services  
offer excellent finders fees to all  
employees who put forward successful candidates.**

**£1,000** for non-technical positions and **£2,000** for technical, supervisory, or managerial positions. The fee is payable to you upon the new employee successfully completing their 3 month probationary period.

# Vacancies

- 30 NORTH COLONNADE - SITE SUPERVISOR
- 5 MERCHANT SQ. - MECHANICAL ENGINEER
- 90 LONG ACRE - SITE MANAGER
- 33 CAVENDISH SQUARE - ELECTRICAL SHIFT TECH
- IBEX HOUSE - MECHANICAL ENGINEER
- CARNABY STREET - ELECTRICAL ENGINEER
- HEAD OFFICE - MOBILISATION ENGINEER
- HEAD OFFICE - HEALTH & SAFETY ASSISTANT
- PADDINGTON CENTRAL - ESTATE ENGINEER
